

## LLOYDS BANKING GROUP APPRENTICESHIPS Nationwide opportunities

An apprenticeship with us is about lots of things. An unforgettable learning experience. A kick-start to a rewarding career. An opportunity to work with - and grow alongside - diverse, creative, ambitious people.

This is your chance to have a role that matters. You'll start your career with one of the nation's biggest banks, helping Britain prosper. We offer incredible support and development opportunities that are tailored to match your interests. What's more, the work you do will make a real difference.

Taking on a role with real responsibility, you'll develop a wealth of skills and experience through a mixture of formal and on-the-job training. You will also gain a recognised professional qualification at no cost to you. Our apprenticeships start at intermediate level, and go all the way up to degree level, should you want to. All of our Apprentices are offered a permanent role, full pay and benefits and respected UK qualifications.

We're the UK's biggest bank, with millions of customers and a presence in almost every community. We've got brands with a long and proud history, like Lloyds Bank, Halifax and Bank of Scotland. What's more, we're always looking to the future - we were the first bank to talk to customers through Twitter and YouTube. In everything we do, we put customers first, keep things simple and make a difference together.

We offer a broad variety of apprenticeships across five job families:

**Customer Facing** is about the relationships we build with individual and corporate customers and local communities.

**Financial Management** is about controlling the details and managing changes across our big and complex business.

**Business Management** is about the processes, systems and designs behind our processes and products – the support network for our customers.

**Innovation Technology** is about the cutting edge technology that helps our business work smarter for customers.

**People Strategy** is about creating great experiences and strengthening relationships with our customers and our people.

As well as the wide range of development opportunities available throughout your apprenticeship, you'll enjoy your choice of discounted financial products and a generous pension scheme.
